

# Parmalee Elementary - Additional Parking

Eudaimonia - Human Flourishing Center recently spoke with officials regarding optimal parking and traffic flow at 4471 Parmalee Gulch Road. The consensus was that the following would best support the activities of Parmalee Elementary School, Eudaimonia, and Indian Hills community activities. We hope the one-way traffic and additional parking on the property will best support morning drop-off, afternoon pick-up, and school events. As of October 16th, Eudaimonia has morning and evening activities on our schedule. **Please utilize the Additional Parking area during large school events, thus keeping spaces available in our main lot.** We are thrilled to be a part of the community! Please contact us with questions or comments.
