What is VTSS?

The Virginia Tiered Systems of Supports (VTSS) integrates academics, behavior and mental health into a single **decision-making framework** for establishing the supports needed for a school to be an effective learning environment for all students.

The VTSS systemic approach allows divisions, schools, and communities to provide multiple levels of support to students in a more effective and efficient, clearly defined process.

Classroom Management Systems

- Incorporate with class dojo using respect, responsibility, and resilience as positive reinforcements in the classroom.
- Refer students to receive a principal's award when seeing respect, responsibility, or resilience in the classroom.
- Reminders: “Just be good and do your very best” and “just be kind and do what is right”
