

Change to Parent Pick Up for 2022-2023 School Year

Afternoon Pick Up

Parents that are picking up their students this year will not be permitted to enter at the front of the school building or near the covered bridge at the end of the school day. Instead, traffic will be directed to the Mineral Springs entrance to turn around and reverse direction. Parent vehicles will then be lined up on the shoulder of the road, completely off of the road, near the row of maple trees. It is important to keep two lanes open on Eagles Way for buses and student drivers to exit. (See Pick Up Map Below)

Morning Drop Off

The morning traffic pattern and drop off will remain the same as last year. Vehicles will need to drive down Eagles Way until they reach the parking area in the back. They should then continue straight next to the football field and out behind the school where the buses drop off. Vehicles should then continue all the way around the school until they have circled back to the front of the building where students can exit the vehicle along the entire walkway. (See Drop off Map Below)

Student Athletes

Additionally, student athletes will not be permitted to move their cars at dismissal time. They should remain in their parking spots until games/practices are over.
