The Chula Vista Elementary School District has issued Addendum No. 2 in reference to Bid NO. 22/23-2 Network Hardware, based on questions received. The below questions were received prior to the deadline, but inadvertently missed on Addendum No. 1. Please see the questions below and the District’s responses:

**Question No. 1** - On page 23, line item 12 appears to include two items. Can we assume “Management Firepower 2600 Chassis” should be on its own line?  
**District's Response:** Please see the Districts combined response in the final question below.

**Question No. 2** - On page 23, line item 13, we are assuming this represents a 36-month term for the solution support listed in items #24 and #36 in the Bid Quotation Sheet. Can you provide more details on what “36 Month Service” represents?  
**District's Response:** The Management Firepower 2600 is a stand-alone item separate from the Firepower 2100 Series Firewall. The 36-month service is listed on item #36, page 42. The 36 month service is essentially a support solution with Smart Total Care, which also offers advanced next day replacement.

The Bid Opening remains as originally scheduled for **November 3, 2022 at 11:00 a.m.** All bids are due in the Purchasing Department, Building 800, 84 East J Street, Chula Vista, CA 91910, by the date and time stated above. Bids received after the date and time stated above will not be considered and will be returned to the vendor unopened.

Please sign below and return a copy of Addendum No. 2 with your Bid submittal.
