Ms. Peacock thanked CVESD for raising over $2.5 million throughout the course of the partnership. She presented a Certificate of Appreciation to Superintendent Dr. Eduardo Reyes.

8. COMMUNICATIONS TO THE BOARD OF EDUCATION

A. Chula Vista Classified Employees Organization

President Angela Reed spoke about her passionate belief in providing professional development to classified employees. Prolonged employee trainings to transportation, clerical, and custodial staff are continuous. Providing training is in the benefit of the District. Unfortunately, professional development for those in a classroom setting is inadequate. There was recently an issue with CPR training, or lack thereof.

She closed her discourse circling back to equity. Professional educators consistently receive professional development training. Equitable treatment is to provide professional training for classified educators, as well as certificated educators.

B. Chula Vista Educators

President Rosi Martinez thanked Mr. Oscar Esquivel and Dr. Eduardo Reyes for reducing combo classes. She commended Mr. Jason Romero for attracting and recruiting employees.

Ms. Martinez expressed concern about employees not being appreciated, not given opportunity when requesting to transfer, and not even given an opportunity to interview or considered for the request to transfer. This is insulting and does not make employees feel valued or respected. She requested that the district appreciate employees by supporting the process that reflects their work and years of service.
Also of importance is safety. She has received much communication with the concern of safety at the schools. Every school must create a safety plan, and a safety committee. Staff needs to be included as active participants.

The safety MOU is due to expire in September. CVE feels that it is important to revise and extend this MOU created by the pandemic.

9. ORAL COMMUNICATIONS

The Oral Communications section provides the public with an opportunity to address the Board on non-agenda items. Persons wishing to be heard may attend in person and should complete a "Request to Be Heard" card and submit it to the Recording Secretary before the start of the meeting or call 619-679-9001 prior to the start of the meeting. Speakers are requested to limit their remarks to three minutes and speak in a respectful and professional manner. The Board shall limit the total time for public input on each topic to 20 minutes. With Board consent, the President may increase or decrease the time allowed for public comments depending on the number of persons wishing to be heard. No Board action can be taken.

- Maria shared that she has a problem with Board member Bishop not participating in the Pledge of Allegiance
- Jackie, parent of fourth grade and fifth grade student shared her frustration with the discrepancies on the east and west side schools, and questioned the role of the Board, its endorsement, and elections
- Peggy, teacher at Heritage, expressed concern with the schools’ health and safety plans, and increase in positive COVID cases

10. ORAL PRESENTATIONS AND WRITTEN REPORTS

A. District Safety Efforts/COVID-19 Update

Mr. Romero started off by ensuring that CVESD is committed to practicing COVID guidelines to keep students and staff safe. Even though masks are optional, communication is sent to families by email and phone calls stressing the importance of masking. Furthermore, weekly testing is continuing at every site at no charge. Additionally, a new position, COVID Notification Coordinator, has been created, pending Board approval tonight. This position will help streamline the process at the school sites.

On August 9th, a Safety Forum presented by CVESD in collaboration with CVPD was held, attended by parents, staff, and the community. Safety is a regular practice at CVESD. Every school will continue with Site Preparedness, conducted throughout the year. Some procedures include checking for damage to exterior fences, gates, padlocks, and maintenance and upkeep, as well as perimeter checks. Site
Readiness includes testing fire alarms, PA system, and perimeter checks. Lastly, School Community Preparedness includes safety professional development and training, and fire, duck, and cover drills. An Active Shooter Training for staff will be provided in conjunction with Chula Vista Police Department (CVPD). Students do not participate in this training. Overall, three areas of safety include Site Preparedness, Site Readiness, and School Community Preparedness.

On an annual basis, every school is required to develop and update a Comprehensive School Safety Plan (CSSP) due to the County in March. This plan provides guidance on school policies related to emergencies. Each school has a customized plan.

One of the longstanding partnerships for safety is School Resource Officers (SRO). Currently, there are 17 SROs serving 70+ schools.

Future projects to improve safety include new radios, cameras at 20 schools, and hiring a safety consultant.

Board Members had the opportunity to comment and ask questions.

Member Bishop requested clarification on our COVID cases, and safety practices. Also included in the discussion was security cameras, emergency preparedness drills, active shooter drills, and safety communication to parents.

Member Fernandez shared a recent incident of a lockdown at one of our schools. Communication to parents is of high importance. Additionally, it is critical to rank maintenance work orders concerning safety to the top of the list.

Member Tamayo expressed the importance of school safety committees, COVID testing, and air filters in classrooms.

Vice President Bunker reiterated the importance of communication and notifications to parents on safety protocols and incidents.

President Ugarte thanked all stakeholders for the Safety Community Forum and the parents and community for attending.

B. Report on Teaching and Learning with a Vision of Purpose

Dr. Tessier reported on the Combination Class and Class Size Average updates and started by thanking the Board, Dr. Reyes, and Mr. Esquivel for their support and CVE President Rosi Martinez for pushing this topic.

The average class size numbers have been reduced significantly resulting in the lowest in 17 years.

Combination classes were projected to be 86 this year, but the number was reduced to 54.
There was one public comment on this item:
- Delia Dominguez Cervantes: shared concerns on students not learning at their age level

Board Members had the opportunity to comment and ask questions.

Member Bishop requested clarification on average class size for TK-3. It is 12 students per one certificated teacher. Dialogue also included the process of overflowing students to another school. The cause is due to a lack of space (classrooms) or number of teachers.

Member Fernandez asked about the cost of reducing combo classes 86 to 54. It was explained that the cost is roughly $125,000 per teacher, which includes salary, benefits, and costs. One-time funds (COVID relief) were used. These are not on-going funds. It is known that coming out of the pandemic there were achievement gaps, statewide, nationwide, even worldwide. Our top priority is for students to receive the most intense intervention and support as possible. Additional use of these funds included the hiring of Impact teachers, counselors, and psychologists to help students now.

President Ugarte appreciated the District’s efforts to reduce the number of combo classes.

C. Report on Results of the 2021-22 California Assessment of Student Performance and Progress in English-Language Arts and Math and the District’s Plan to Improve Student Achievement Outcomes

Dr. Tessier introduced Senior Director of Curriculum and Instruction Rochelle Carroll and presented on preliminary results from California Assessment of Student Performance and Progress (CAASPP).

Summative ELA overall rank by grade level shows that third grade is the lowest performing grade level. This is a result of two years of trying to learn a language on a computer, with a mask on. Summative math overall by grade level shows that the grade five is the lowest performance grade. Data shows there is about a 10% decline from the pre-COVID years.

Literacy is the focus for Teaching and Learning, particularly for students grades three through six. An additional Impact teacher was assigned to the top 12 unduplicated sites with the highest need. Furthermore, we are using National Center for Urban School Transformation (NCUST) to coach and support principals, so they know how to support their teachers.

Board Members had the opportunity to comment and ask questions.

Member Bishop requested clarification on NCUST and the different tracking and program systems used for analyzing data.
Member Fernandez commended the support systems in place and suggested to include classified staff to also participate.

Board Members expressed their appreciation with the work on improving student achievement.

President Ugarte requested a break at 8:06 P.M. and meeting reconvened at 8:14 P.M.

This agenda item is to request an additional SRO, bringing the total of four SROs to $715,326 and continue to be paid for with LCAP funds. There is a charge-back from Charters that make up the additional revenue not covered by LCAP.

SROs provide much support to our schools and communities. To name a few, help with Harborside and Harborside Park, student custody issues, the PERT Team, and ensuring our students and staff are safe. Adding an additional SRO is critical to help us with our safety efforts.

CVPD Captain Collin and Sargent Joe Picone responded to questions by the Board. Funding for four (shared Districts) SROs, approximate cost of $822,000, is covered by the City of Chula Vista. Officers get extensive training when they become an SRO. Currently there are seven SROs, each assigned to 10 schools, broken up into sectors. Each get to at least five of their schools a day. Their presence is not to patrol. They are there to support schools, conduct perimeter checks, increasing safety and security, and attend meetings, with students, staff, and parents. They are involved with the community and speak at school events to educate about what they do.

Board Members had the opportunity to comment and ask questions.
