EQUITY AND ACCESS FOR EVERY STUDENT

The Board of Education believes that the diversity that exists among the District’s community of students, staff, parents/guardians, and community members is integral to the District’s vision, mission, and goals. Addressing the needs of every learner requires recognition of the inherent value of diversity and acknowledgement that educational excellence requires a commitment to equity in the opportunities provided to students and the resulting outcomes.

(cf. 0100 – Philosophy and Goals)
(cf. 0410 - Nondiscrimination in District Programs and Activities)
(cf. 5145.3 - Nondiscrimination/Harassment)

The District shall eradicate institutional bias and racism of any kind, including implicit or unintentional biases and prejudices that negatively impact student academic achievement, social-emotional well-being, and access to opportunities, and will eliminate disparities in educational outcomes for students from historically underserved and underrepresented populations.

Additionally, the District shall proactively identify classisms, language, gender, and cultural biases as well as practices, policies, and institutional barriers that negatively influence student learning, perpetuate achievement gaps, and impede equal access to opportunities for all students. The Board shall make culturally responsive and culturally proficient decisions using an evidence-based equity framework to remove the impediments to learning faced by students of color and/or diverse cultural, linguistic, or socioeconomic backgrounds. To ensure that equity is the intentional result of District decisions, the Board shall consider whether its decisions address the needs of students from racial, ethnic, and indigent communities and remedy the inequities that such communities experienced in the context of a history of exclusion, discrimination, and segregation. Board decisions shall not rely on biased or stereotypical assumptions about any particular group of students, parents/guardians, or staff.
