Facilities Usage Committee Community Forums

Jeffco Public Schools calls all community members and parents to attend one of four Community Forums in September to provide input to the district's Facilities Usage Committee on efficient and effective usage of schools. The input received from the community forums will be used to produce a final report to the Board of Education on the best use of school buildings for the future.

The Facilities Usage Committee is a 30-member panel that is reviewing information about Jeffco's buildings – everything from enrollment to the cost of maintenance. The committee is made up of both staff and community members.
