Statement Regarding Alleged Threat to Standley Lake High School by Mitchell Kusick

Working with law enforcement, Jeffco Schools learned of a man who was allegedly threatening students at Standley Lake High School's Trick or Treat Street event. Police acted quickly to take the man into custody before the event. At no time were children attending the event in any danger from the suspect because he was already in police custody. We appreciate the swift response from law enforcement and Jeffco district security which helped keep our students safe.
