ISOLATION AND QUARANTINE PROTOCOLS

POSITIVE COVID TEST &/OR COVID SYMPTOMATIC

ISOLATE FOR 5 DAYS MINIMUM

- Stay home for 5 days.
- Return to school/work on day 6 - as long as there is no fever for at least 24 hours without using medication and no symptoms.
- No test is required to return.

EXPOSED TO COVID: UNVACCINATED

QUARANTINE FOR 5 DAYS MINIMUM

- Stay home for 5 days from last exposure*.
- Return to school/work on day 6 - as long as there is no fever for at least 24 hours without using medication and no symptoms have been developed since exposure.
- No test is required to return.
- Note: this also applies for schools in "outbreak status".
- * Household Exposure Example: mother tests positive, isolates for 5 days:
 - unvaccinated person starts quarantine at day 5 of mother's isolation period.
- * Community Exposure Example: unvaccinated person starts quarantine for 5 days from exposure date.

EXPOSED TO COVID: VACCINATED

NO QUARANTINE

- Attend school/work.
