Principal's Update

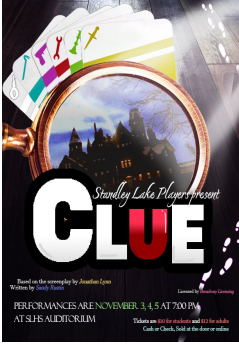

Trick or Treat Street	Thank you families for supporting and attending Trick or Treat Street! Shout out to the SLHS Student Council, Mr Moores, all of the clubs, and club sponsors that made Trick or Treat Street a wonderful event for our community. It was a great night for all!
Standley Lake Experience	The SLHS Experience is November 2 @ 6:00. If you know families that are looking to change schools, please invite them to become SLHS Gators. We have outstanding academics and a comprehensive high school. Last year was a huge success with great response from our prospective families.
Wadsworth Traffic Lights	The work being done on Wadsworth will continue into next week. Please be advised for both your own travel as well as students. School start times have not changed.
Assemblies and Gymnasium	SLHS Administration has made a change to what will be permitted during school assemblies. Due to a number of factors, we will be eliminating the confetti/glitter cannons, streamers powder, flour, paint and noise makers. This message was delivered to students today in Advisement. This also matches the Jeffco Facilities standards.
High Dosage Tutoring - Math	SLHS has been awarded a grant through ESSER III to support our students that have gaps in math. Please be aware that beginning in November, we will be adding a tutoring block to select students' schedules. We will contact the families impacted. This is a great opportunity for students to get caught up. We expect to see large gains in math proficiency for these kids.

Academics

Assessment Calendar	Use this Master Assessment Calendar to determine what assessments your student will be required to take throughout the school year. This also offers some insight into why the tests are given and how teachers use the results to monitor and adjust instruction. The dates are subject to change.

Political Science Fair	<p>What: Political Science Fair Who: Government students presenting to the Standley Lake Community Where: Standley Lake High School When: Tuesday November 1,2022 @ 6pm Why: Encourage civic engagement for Standley Lake students and community members</p> <p>We all remember our school science fairs, right? We are all picturing the paper mache volcanoes and ant farms placed neatly in front of a Tri-fold poster board. Well, the government team is excited to announce the return of the Political Science Fair! Government students will be assigned a small group to work with and will be asked to become experts on one of the races or issues on the 2022 Midterm Election ballot. The goal of the Political Science Fair is to encourage civic engagement from our students and our community, in hopes of all of us being more informed participants in American democracy. While we will be inviting candidates and representatives from the various races to come and speak with students and voters, we want to emphasize that this is a NONPARTISAN project. Students will not be asked to take a position or advocate for any candidate or side to an issue in any way, shape, or form. Students will be taking an informative approach so that voters in our community have accurate and objective understandings of the items that will be on the ballot in this area.</p> <p>We are asking for your support in this effort. We would love to have friends and family members of the SLHS community come and support the students' hard work.</p>
