

SOCIAL STUDIES

04151G05011 US Government

Grade 9

Required of ninth grade students. The course provides an overview of the structure and function of the U.S. government and political institutions. Students will examine constitutional principles, the concepts of rights and responsibilities, the role of political parties and interest groups, and the importance of civic participation in the democratic process. This course may examine the structure and function of state and local governments and may cover certain economic and legal topics.

04001G05011 World Geography

Grades 9-12

Required of ninth grade students. World Geography provides students with an overview of world geography, but may vary widely in the topics they cover. Topics typically include the physical environment; the political landscape; the relationship between people and the environment; economic development, the interdependence of regions; and the movement of people, goods, and ideas.

04103G05012 Modern US History, Semester I

Grades 10-12

Required of graduating students. This course is the culminating study of American History for Jefferson County students and builds on history taught at other grade levels. It includes a historical review of political, military, scientific, economic and political developments. The primary focus of study is 20th Century US History. Part I includes study of the Progressive Era to the beginning of WW II.

04103G05022 Modern US History, Semester II

Grades 10-12

Required of graduating students. This course is the culminating study of American History for Jefferson County students and builds on history taught at other grade levels. It includes a historical review of political, military, scientific, economic and political developments. The primary focus of study is 20th Century US History. Part II includes study of WW II to the present day.

04051G05012 World History, Semester I

Grades 10-12

Required of graduating students. World History provides students with an overview of the history of human society from early civilization to the contemporary period, examining political, economic, social, religious, military, scientific, and cultural developments. Part I focuses on the Contributions of Civilization and Empire Building through the context of different time periods and regions of the world.

04051G05022 World History, Semester II

Grades 10-12

Required of graduating students. World History provides students with an overview of the history of human society from early civilization to the contemporary period, examining political, economic, social, religious, military, scientific, and cultural developments. Part II focuses on the themes of Revolution and Globalization through the context of different time periods and regions of the world.

04201G05011 Economics

Grades 10-12

Required of graduating students. Economics provides students with an overview of economics with primary emphasis on the principles of microeconomics, macroeconomics and the U.S. economic system. The course may also cover topics such as international economics, and comparative economics. Economic principles may be presented in formal theoretical contexts, applied contexts, or both.

Mathematics

Mathematics courses are open to students if they took the course during the school year. Students can make up ½ or a full credit by taking two ½ credit classes.

02052G05014

Algebra I, Semester 1, Grades 9-12

02052G05024

Algebra I, Semester 2, Grades 9-12

02072G05014

Geometry, Semester 1, Grades 9-12

02072G05024

Geometry, Semester 2, Grades 9-12

02056G05012

Algebra II, Semester 1, Grades 10-12

02056G05022

Algebra II, Semester 2, Grades 10-12

Science

03001G05012 Earth Science, 1st Semester

Grades 9-10

03001G05022 Earth Science, 2nd Semester

Grades 9-10

This course will offer insight into the environment on earth and the earth's environment in space. While presenting the concepts and principles essential to students' understanding of the dynamics and history of earth,

03051G05012 Biology, 1st Semester

Grades 9-10

03051G05022 Biology, 2nd Semester

Grades 9-10

Biology courses are designed to provide information regarding the fundamental concepts of life and life processes. Topics include, but are not restricted to cell structure and function, general plant and animal physiology, genetics, and taxonomy.

03101G05012 Chemistry, Semester 1

Grades 10-11

03101G05022 Chemistry, Semester 2

Grades 10-11

**SOUTH AREA
SUMMER SCHOOL 2022**

This Senior High School Summer School Program is for students who need to make up credit in a required subject area. Summer school follows a blended learning model. Students will attend class at Columbine two days per week for each subject they enroll in and the rest of their learning will be AT HOME through an on-line computer based program, Edgenuity. All students will need to have regular internet access and a good work ethic in order to successfully pass summer school. The high school program is open to currently enrolled Jeffco students who are in Grades 9 through 12.

Students can register for up to two courses that will be completed by June 23rd, the end of the summer school session. **Taking one or two courses in a compacted schedule is very challenging and students will need to work very hard to get this done.** There are no course fees for summer school this year for Jeffco students.

Students will attend in-person orientation on Friday, May 27th and start classes in-person and on-line on Tuesday, May 31st. Students will go to school in-person at Columbine at least two days per week through June 23rd. All students must complete course work by June 23rd. Students may finish their courses early and be done!

DATES: May 27 – June 23rd

TIMES:

Orientation – REQUIRED FOR ALL STUDENTS

Friday, May 27, 8:00am – 9:30am at Columbine
Students working on 2 classes will have orientation with their second teacher from 9:30am-11:00 am in-person.

Class Schedule:

Mondays & Wednesdays from 8:00am-11:00am all Soc.

Studies and Math classes meet. If you have both, you will split the time. (No class Monday, May 30th for Memorial Day)

Tuesdays & Thursdays from 8:00am–11:00am all Science and English classes meet. If you have both, you will split the time.

There is no in-person requirement on Fridays.

LOCATION: Columbine High School

6201 S. Pierce St.
Littleton, CO 80123
(303) 982- 4400

REGISTRATION:

Registration is online and closes May 25th. Registration link is on the Columbine High School homepage or at drop-in registration at Columbine High School May 25th from 8:00 am – 3 pm.

Enrollment Restrictions

It is also possible that courses may become full and students will be placed in classes according to when they register. Because summer school is self-supporting, a class may not be offered if enrollment numbers are too low or if we run out of teachers. You will be contacted if this impacts you/your student.

Attendance Policy

Due to the short length of the summer session, students who are absent from orientation and/or class for **more than ONE** day will be dropped from the program without credit (three tardy marks will count as one absence.)

Conduct Code

All students must adhere to the Jefferson County Public Schools *Conduct Code and Related Policies*. Any student violating Board of Education Policy JICH, JICH-R (Drug and Alcohol Use) or Policy JICI (Weapons in School) will be immediately withdrawn from summer school. Neither credit nor refund will be granted. Violation will be reported to the student's home school.

**TRANSPORTATION IS THE RESPONSIBILITY
OF THE INDIVIDUAL STUDENT**

Students should bring final report card and/or transcript to registration at Columbine or work with their homeschool counselor to select classes.

Summer school grades will not replace grades currently on transcripts. Summer school grades are calculated in students' GPAs and it is possible to FAIL summer school classes.
Summer school grades will go on transcripts after August 1.

SUMMER SCHOOL OFFERINGS

These standards-based classes meet the expectations for the Colorado State Standards and the Jefferson County Schools curriculum; however, they are not NCAA approved. It is very important to register for the correct semester, please check your transcript and registration for accuracy.

English Language Arts

01001G05012, Semester 1, English Language Arts 9

01001G05022, Semester 2, English Language Art 9

English/Language Arts 9 incorporates the five aspects of language arts: reading, writing, speaking, listening, and viewing. Study of genres leads to written compositions that build upon students' prior knowledge of grammar, vocabulary, word usage, and mechanics. Students apply comprehension and critical reading skills to both literature and nonfiction.

01002G05012, Semester 1, English Language Arts 10

01002G05022, Semester 2, English Language Arts 10

English/Language Arts 10 offers a balanced focus on composition and literature. Students read widely to improve their reading rate, vocabulary, and comprehension and develop skills to determine the author's intent and theme and to recognize the techniques used by the author to deliver his or her message. Students apply knowledge of purposes and audiences by studying and producing various genres. Oral communication is practiced in group settings as well through presentations.

01003G05012, Semester 1, English Language Arts 11

01003G05022, Semester 2, English Language Arts 11

English/Language Arts 11 develops students' writing skills, emphasizing clear, logical writing patterns, word choice, and usage, which students apply to compositions that utilize research and rhetoric. Students read nonfiction and literary works as a means to understand the world and to inform their writing. Literary conventions and stylistic devices may receive greater emphasis than in previous courses. Participation in class dialogue and delivering presentations are expectations of this course.

01004G05012, Semester 1, English Language Arts 12

01004G05022, Semester 2, English Language Arts 12

English/Language Arts 12 blends composition, analytical reading, and literature into a cohesive whole. Students combine purposes, patterns, and genres in writing while incorporating research and rhetorical techniques. Collaboration and critical thinking lead to more complex presentations and products, with students honing their comprehension skills while reading more complicated literary and nonfiction texts.
